Photo and Media Release

PERMISSION TO TAKE AND USE PHOTOGRAPHS AND RECORDINGS

I, _____, give _____ (the **"Organization"**) permission to take photographs, video and sound recordings of me (the **"Media"**) at _____ on _____, and to use them as set out in this release.

1. Where the Media may be used

1.1 The Organization may use the Media only in the places I have checked below. Anywhere I have not checked, the Organization will not use the Media without asking me again.

- ☐ On the Organization's website
- ☐ On the Organization's social media accounts
- ☐ In printed material such as flyers, brochures and reports
- ☐ In news stories and press releases
- ☐ In paid advertising

1.2 The Organization may crop, resize, adjust the color of, and add captions to the Media. It will not edit the Media in a way that changes what I did or said, or that makes me look foolish, or add anything that suggests I said or endorse something I did not.

2. Whether my name is used

2.1 The Organization may use my name or other details that identify me in a caption only if I have checked here: ☐ My name may be used in captions. Otherwise it will use the Media without my name.

3. Respect and safety

3.1 The Organization will not photograph or record me in a place where I would reasonably expect privacy, such as a changing area or a toilet, and will stop taking pictures of me at any time if I ask it to on the day.

3.2 The Organization will choose pictures that show me in a fair and positive way. It will not use a picture that I have told it, in writing, that I find embarrassing or that shows me in a situation I did not know was being recorded.

3.3 If the Organization is not the only person taking pictures, for example at a public event, it is responsible only for the pictures that it or its own photographers take.

4. How the pictures are stored and who sees them

4.1 The Organization will store the Media securely, keep it only for as long as it needs it for the uses I have checked, and then delete it or archive it where it cannot be seen by the public.

4.2 Only the Organization's own staff, volunteers and contractors who need the Media for those uses will have access, and they will be bound to keep it private except for the uses I have allowed.

4.3 Pictures that are put on the internet can be seen by anyone, copied and shared, and the Organization cannot control what other people do with them once they are public. I have thought about this in making my choices.

5. What I understand

5.1 I will not be paid for this permission and I do not own the Media, which belongs to the Organization. I have no right to approve each use, but I can ask to see how I have been shown.

5.2 This permission lasts _____.

5.3 I may withdraw this permission at any time by writing to the Organization at the email address below. The Organization will stop new uses, and will take the Media down from the places it controls within thirty days. It cannot recall printed material already distributed, or remove copies others have made.

5.4 I am at least eighteen years old and I am entitled to give this permission. If I am under eighteen, a parent or guardian must sign the separate release for minors.

6. How to reach me

6.1 My email, in case the Organization needs to ask me something:

_____

6.2 The Organization's email for withdrawing this permission: _____

Signatures

I have read this release and I understand it. I give my permission freely.
